Nyree Jones, The Larch House

What is your passion / specialism / position on solutions to the climate crisis?

Due to me living in the UK's first zero carbon, affordable certified passivhaus. I would like to see more houses built like this. It is important that tenants have the benefits of lower energy bills, improved comfort and incorporating greener methods of buildings that will help with the climate emergency.

Use this final part of your presentation to help Assembly members better understand your position in relation to others and what that means for addressing the question that they have been set.

Moving from a traditional 'normal' terraced house to an eco friendly home my family have learned to adapt to a new way of living.

This journey has helped to educate us which as helped to educate others. This has been a wonderful experience for us. I personally think that an awareness and understanding of climate change is key. Therefore, in my opinion educating children from a young age is vital.
